Education

San Francisco State University

BS in Computer Science

GPA : 3.8

San Francisco, CA
Aug 2018 – Present
(Expected Graduation - May 2022)

Projects

Wildfire Tracker
This website tracks the wildfires going around the world using a NASA API.

JavaScript, React, HTML, CSS, NASA API
https://burmy.github.io/Wildfire-tracker

Crypto Currency Tracker
A website that shows Crypto Currency trends. This was made during the time when crypto currency reached its all time high value.

JavaScript, React, HTML, CSS
https://burmy.github.io/Crypto-tracker

SF Hacks
This SF Hacks website I redesigned during SF Hacks 2021 and won a Web Competition for the best redesign.

JavaScript, React, HTML, CSS
https://burmy.github.io/sfhacks

Face Detecting AI
A website that detects faces from images taken anywhere from the internet. This was a part of a Udemy course I took during the summer of 2020.

JavaScript, React, HTML, CSS
https://face-detecting-ai.herokuapp.com

Robo Friends
This app is just a simple user search app and was the first react app I ever created.

JavaScript, HTML, CSS
https://burmy.github.io/robo-friends

Awards

SF Hacks - Best Website Redesign
Won a Web Competition at SF Hacks 2021 for the best website redesign.
